NOT GETTING ROBO CALLS?

The district has a communication service in place to enhance parent communication by allowing the district and schools to deliver important information via opt-in SMS text messaging. This messaging system allows you to receive the robo calls via text that are sent by our school. In order to participate in the service, parents must opt in and indicate a willingness to receive text messages to their phones.

Steps to follow:

*Parents can simply text any one of the following words to the number **68453**:*

- *subscribe*
- *optin*
- *yes*

*****Please note, although the district does not charge for this service, it does not pay for text message charges that may be incurred by parents for sending or receiving text messages. Parents should check with their wireless carrier for possible charges.**
